

VHIF/IV IMPULSE HEAT SEALER

VHIF/IV 355

PRODUCT DESCRIPTION

The VHIF/IV is our economy model and is equipped with an electronic timer (adjustable from 0 to 2.5 seconds) and a solid-state relay; it ensures increased efficiency, low level maintenance, and an extended lifespan for your heat sealer.

It seals polythene, PP, and PVC bags and tubing, the VHIF/IV is a reliable and versatile solution for a broad range of heat-sealing applications.

PRODUCT FEATURES

- Double seal models available.
- Servicing and spare parts available.
