

Polythene Tubing

PRODUCT DESCRIPTION

Polythene tubing is a versatile packaging solution used with heat sealers to create made to size bags. The polythene sleeve on a roll is available in a range of different widths to fit items of varying sizes and shapes. The bags prevent dirt, dust and moisture from contaminating heat sealed products, and the transparent plastic allows for easy identification.

APPLICATION INFORMATION

- For use with Venus Heat Sealers and other heat sealing machinery.

AVAILABLE SIZES

PRODUCT CODE	SIZE	APPROX. WEIGHT/ROLL	METRES PER KG	MINIMUM ORDER
P1050050	50mm x 50um (2" x .002")	3kg	209	1 roll
P1050075	75mm x 50um (3" x .002")	8kg	140	1 roll
P1050100	100mm x 50um (4" x .002")	10kg	104	1 roll
P1050125	125mm x 50um (5" x .002")	15kg	87	1 roll
P1050150	150mm x 50um (6" x .002")	15kg	70	1 roll
P1050175	175mm x 50um (7" x .002")	18kg	60	1 roll
P1050200	200mm x 50um (8" x .002")	20kg	50	1 roll
P1050228	228mm x 50um (9" x .002")	25kg	46	1 roll

AVAILABLE SIZES
