

POLY SISAL

PRODUCT DESCRIPTION

Poly Sisal handles, knots and looks similar to real sisal with fibrous surface and natural appearance, but with lighter weight, buoyancy and higher strength of polypropylene. Available in two, three and four ply centre-draw spools. Used for lashing, gardening, landscaping, bundling, boating and in retail applications.

PRODUCT FEATURES

- Strong and lightweight polypropylene construction provides a high strength-to-weight ratio, making it easy to handle while delivering reliable performance.
- Weather and moisture resistant which is designed for outdoor and agricultural use, resisting water absorption, rot and mildew, even in damp conditions.
- Offers good low stretch abrasion resistance and maintains tension during use, providing consistent durable performance through repeated handling.
- UV-stabilised options provide improved long-lasting outdoors resistance to sunlight, while the material will not rust or corrode.
- Available in a range of colours and thicknesses, polypropylene twine is a practical and cost-effective alternative to natural-fibre twines.

PRODUCT SPECIFICATIONS

CODE	TYPE	PACK	METRES PER PACK	METRES PER KG
F1102601	2/600	10 x 1.25KG	7500	65
F1103101	3/130	4 x 2.25KG	1170	245
