

NEW Venus[®] VHIBIV HEAT SEALERS

- Consumes power only while the sealing arm is depressed and indicator light is on.
- Teflon coated sealing bars.
- Automatic electronic SCR timer with settings from .2 to 1.5 sec.

The Mark IV is the latest and lowest priced addition to the popular Venus VHIB line of benchtop impulse heat sealers. Choose from 200, 300 and 400mm seal lengths all with 2mm wide seal and automatic timer (.2 to 1.5 seconds). The new electronic SCR Thyristor timer with no relay gives greater efficiency, longer life and requires less servicing. The easy, economical and attractive way to package a wide variety of products from foods to apparel in polythene and polypropylene bags.
