**VENET Polythene bags, sleeves and rolls**

Free air circulation ensures fruits, vegetables, shellfish, dried fruits and nuts remain fresh and enticing. Excellent for confectionary toys, sporting goods, hardware and whenever complete visibility is important. Choose from a wide range of colours to enhance your product’s sales appeal.

**VENET Extruded & knitted**

Tubular polythene netting is suitable for use with Venet hand net clippers and Venhart net clipping machines.

**Tubular knitted KPE35**
Extremely soft double filament knitted netting in centre draw 1200 metre pack. Colour red. Width 350mm. 5 packages per carton.

**Tubular rolls FE170, 8541**
Extruded netting in 1000 metre rolls. Colours: red, blue, orange, green, white and yellow. Maximum expanded width 410mm.

**Tubular sleeves 8541**
Extruded netting bunched onto a cardboard core for easy loading onto the chute of Venhart net clipping machines. Colours: red, yellow and green. Maximum expanded width 410mm. Length 62.5 metres. 16 sleeves per carton.

**Bunch sleeves bags 8540**
Extruded bags with bottom bunched and thermo-welded. Max. expanded with 400mm. Lengths 320, 380, 450, 500, 550 and 600mm. Colours: natural, red, blue, green, yellow, orange. 100 per bundle. 10 bundles per box. 5 boxes per carton. (Red, green and yellow only)

**Bunch sealed bags 8540**
Extruded bags with bottoms bunched and thermo-welded. Max. expanded with 400mm. Lengths 320, 380, 450, 500, 550 and 600mm. Colours: natural, red, blue, green, yellow, orange. 100 per bundle. 10 bundles per box. 5 boxes per carton.

**VENET Citrus bags**

Specially designed for packaging oranges, grapefruit, lemons and other citrus fruits. Excellent visibility and full ventilation. Extruded from a blend of linear low density polythene (LLDPE) for strength, and high density polythene (HDPE) for linear low density (LLD) polymers for strength. Also used as Christmas stockings. Colour red.

**VENET Mussel Netting**

Made from a flexible polyolefin polymer designed for the deep-water conditions in which mussels are cultivated. The expanding diamond mesh configuration adapts to tidal movements, maintains its elasticity and does not deteriorate in seawater.

**VENET Oyster growing bags**

Heavy duty with strong sewn bottoms. Made from black, flat extruded polythene netting. Unaffected by saltwater and resistant to chemicals, organic agents and UV. Able to withstand polythene (HDPE) and linear low density (LLDPE) polymers produce a strong filament netting with very little stretchability.

On the oyster farm the bag is filled with oysters and the top fastened with a cable tie (also supplied by Venet). The bags are placed in rigid netting racks and attached to rafts in shallow bays above the low tide level allowing the oysters to feed with each high tide.

**VENET Anti-bird net**

Protect your fruit trees, vegetables, vines and seedlings from bird damage. Also helps to prevent damage caused by large hallucines.

Sheets extruded
Light and strong UV resistant polythene. Will not absorb moisture. Colours: black and white. 4 metres wide in 5.15 and 50.15 metre lengths. 20 per carton. (White only, 4 per carton).

Rolls knitted
UV stabilised for up to 4 years. Mesh 16mm x 16mm. 300 metre roll. Tensile strength (tensile) 1.25kg. Weight 15.9 gsm. Rolls 500 metres x 7metres and 300 metres x 5 metres. Colour white.

**VENET Super soft 35045**
Extra softness for grapes, peaches, plums, strawberries, cherries and all delicate produce. Each mesh is bound by 3 extremely fine and flexible extruded filaments to distribute the weight evenly. Maximum expanded with 350mm.

**Bunch sealed bags 35045**
Bunch sealed bags. Full expanded with 350mm. Colours: natural, red, blue, green, yellow, orange. 100 per bundle. 10 bundles per box. 5 boxes per carton.

**Bags on wickets 35045**
Specially designed for packing grapes. Bunch sealed and packed flat with the tops opened and threaded onto wickets ready for immediate use. 350mm length in green and purple. 500mm length in purple only. 250 bags per wicket, 20 wickets per carton.

**Tubular rolls 35043**
1000 metre rolls in red, blue and green. Maximum expanded with 410mm. Suitable for use on Venhart net clipping machines.

**PRODUCE NETTING**

A special blend of high and low density polythene and linear low density polythene (HDPE, LDPE and LLD) produces extremely fine extruded filaments with the best combination of stretchability, softness and strength.

**Lightweight**
Large mesh made from thick filaments with strong sewn bottom. Particularly suitable for grapefruit and large novel oranges. 3g capacity: (W94, mm) 210 x 530. Flat packed, 100 per pack, 1000 per carton.

**Drawingstitch**
A handy built in drawingstitch eliminates the need for clips or ties. Thermowelded bottom. 3g capacity: (W94, mm) 230 x 530. 1000 per pack.

**Drawingstitch Minimesh**
Made from fine but strong filaments with strong sewn bottom. Particularly suitable for grapefruit and large novel oranges. 3g capacity: (W64, mm) 210 x 530. Flat packed, 100 per pack, 1000 per carton.

**VENET in netting**

Sheets extruded
Light and strong UV resistant polythene. Will not absorb moisture. Colours: black and white. 4 metres wide in 5.15 and 50.15 metre lengths. 20 per carton. (White only, 4 per carton).

Rolls knitted
UV stabilised for up to 4 years. Mesh 16mm x 16mm. 300 metre roll. Tensile strength (tensile) 1.25kg. Weight 15.9 gsm. Rolls 500 metres x 7metres and 300 metres x 5 metres. Colour white.

**Netting covers like Netwrap**

Revolutionary Coverage and efficiency. The heaviest and strongest netting available in Australia. Goes right to the edge and over (depending on the bales). 11, 12, 12.3, 12.7, 14 and 16 grams per linear metre in 1.25, 1.30 and 1.64 metre wide rolls and lengths of 3000, 3500 and 5000 metres. For 4ft and 5ft wide bales. Made from knitted high density polyethylene (HDPE). UV stabilised and made for Australian conditions.

**VENET Plant support net**

Perfect support for flowers, vines and climbing plants including passion fruit, beans and peas. Made from extruded polythene. Mesh size 150mm x 150mm. Weight 10 grams per square metre (+/- 8%) UV stabilised. Colour white. Selvage on one side.

Width 1.05 metres, 7 metres, 19.5 kg per roll. 20 rolls per pallet.
Width 1.50 metres, 9 metres, 13.5 kg roll. 25 rolls per pallet.
Width 2.00 metres, 15 metres, 25 kg per roll. 20 rolls per pallet.

*Bales per roll based on 5’s 5% hay bales using 2.5 4’s.

*Shore peas growing on Venet Plant Support Net*
**PROTECTIVE NETTING**

**Mango Netting P7025**

Used as a chute by pickers to slide the mangoes gently to the ground. 100 metre tubular polyethylene rolls. 125mm wide. Colour red. 3 rolls per carton.

**Drum liner C6055**

Prevent friction between containers of volatile or flammable chemicals. Especially suitable for 9kg gas bottles, 400mm long x 330mm wide (expanded 550mm). White polyethylene. 800 per carton.

---

**PALLENT NETTING**

**Knitted Pallet stretch netting**

Ideal for perishable and freezer products including produce and fish. Free air circulation maintains freshness, prevents condensation and assists quick refrigeration. Easy cooling, heating, drying or fumigation of goods already palletised, and no disturbance or damage to the pallet loads during inspection. Suitable for standard pallet wrapping machines or can be applied by hand. Colour: Natural.

**Laminated Pallet stretch netting**

Knitted

Strong enough to stabilise the pallet load and soft enough to hug the contours to prevent slip and damage. Made from high molecular high-density polyethylene (HMHDPE).

Laminated

Laminated polypropylene netting is more rigid than knitted netting and can be applied with much more pressure.

---

**VENET SAFETY FENCING**

Cordon off danger areas at construction, roadwork and excavation sites. Use for crowd control and to designate areas and routes at ski resorts, sports fields etc.

---

**SECURITY**

Woven orange with 3 reflective stripes. 50 metre roll x 900mm wide.

**LENO-WEAVE**

Woven knitted red and orange polypropylene with built-in tensioning drawing. Ideal temporary barrier fencing. 100 metre roll x 1 metre wide. 8.8kg per roll.

**OVAL**

Heavy duty extruded orange polyethylene. Temperature range -40°F to +200°F. Ideal for long term applications. Horizontal oval holes. 50 metre roll x 1 metre wide.

**VENALPI**

Extra heavy duty extruded orange polyethylene barricade fencing. Rounded rectangular holes. 50 metre roll x 1.5 metres wide.

**75D17**

Extra heavy duty extruded orange polyethylene barricade fencing. Rounded hexagonal holes. 50 metre roll x 1.5 metres wide.
