

VH882VC BAND SEALER

PRODUCT DESCRIPTION

Venus' VH882VC Benchtop Heat Sealers offer a simple and compact packaging line for sealing LDPE, PE, PP, PVC, cello and layered barrier bags. For bags best sealed in a vertical position such as confectionery, liquids, and pasta.

Bags or pouches are placed on the conveyor and travel through the heating elements which seal the tops of the bag. The conveyor speed and sealing head are both adjustable to suit each individual production run.

This model comes in two directional options: left to right or right to left operation. The preferred operation must be specified at the time of purchase. The VH882VC comes with a basic embossing kit. A thermal imprint printer that can print two lines of 14 characters each is an additional option that can be added to the band sealer.

PRODUCT FEATURES

- Safety guard
- Seal width control
- Conveyor alignment adjustable
- Conveyor height adjustment
- Sealing pressure control
- Minimum assembly required
- Servicing and spare parts available

MACHINE SPECIFICATIONS

Machine Weight	29kg
Bag Length	Sealing head to conveyor adjustable from 100mm to 260mm
Maximum Seal Speed	Up to 12 metres / minute
Seal Width	10mm
Conveyor Table Width	150mm
Temperature Range	30–300°C
Seal Distance Below Bag Top	Adjustable from 0 to 30mm
Belt Loading Capacity	2kg
Maximum Seal Thickness	2 x 0.4mm (PE)
Power Consumption	550w
