

AUDION ALL IN VERTICAL BAND SEALER STAINLESS STEEL

PRODUCT DESCRIPTION

The All in Vertical Band Sealer is a versatile stainless steel continuous sealer, suitable for sealing stand-up pouches, gusseted bags, pillow-type bags, sachets and barriers bags.

The sealing head can be tilted up to 90 degrees, facilitating both vertical and horizontal seal applications, and for ease of servicing. The height of the machine and the conveyor belt can also be adjusted to optimize your packaging needs and accommodate a variety of bag sizes.

It features an easy to use digital temperature control and display, enabling precise temperature setting and monitoring, as well as an automatic cool down cycle to protect the sealing belts and reduce maintenance downtime. Often used for application in various markets like food, high-tec, and medical/ pharma.

PRODUCT FEATURES

- Easy digital control of sealing parameters
- Operational in vertical and horizontal sealing
- Adjustable belt speed, conveyor height, and sealing head
- Convenient infeed plate to prepare the bag prior to sealing
- Automatic cool down function
- 12 month warranty
- Servicing and spare parts available

MACHINE SPECIFICATIONS

Machine Size	1464mm (L) x 607mm (W) x 1555mm (H)	Seal Width	10mm
Machine Weight	120kg	Film Thickness	2 x 150um
Conveyor Size (LxW)	1030mm x 250mm	Volts	240V
Conveyor Speed Max	10 metres / minute		
Maximum Bag Height	605mm
