

# VHVD IMPULSE

VHVD 305

## PRODUCT DESCRIPTION

The VHVD heat sealer is a versatile, adjustable head, foot operated, impulse heat sealer with a double seal. The sealing head is designed for flexibility, with the ability to be rotated and set in 5 different positions, from horizontal to vertical. This adaptability caters to a variety of packaging applications and conveyer systems. Units come complete with heat sealer, stand, support shelf and foot pedal. Stand height is max. 122cm, measured from floor to base of sealer.

## PRODUCT FEATURES

- All models come with a double seal feature.
- Servicing and spare parts available.
- Ultimate flexibility with sealing head adjustable to 5 different angle settings to suit individual packaging needs.
- Comes with the convenience of foot pedal to initiate sealing cycle.
