

# VHPE10DS STRAPPING MACHINE

## PRODUCT DESCRIPTION

The VHPE10DS is a best selling, semi-auto strapping machine. To operate, the strap is simply placed around the package, and into the strap inlet to activate the strapping cycle. Easily adjustable for strap widths from 9mm to 15.5mm. The strap feed system, tensioning device and cams are designed to eliminate splitting, bending and scratching. Other features include fast heat-up, a stainless steel tabletop with safety power-off when opened, simple PC board replacement and lockable castor wheels.

## PRODUCT FEATURES

- High engineering standard and simple design
- Easy operation, simple maintenance
- Mechanical outside tension control
- Rigid castors with brake
- Energy efficient, motor only runs as needed
- Reliable P.C. Board control
- Proven quality

## ADDITIONAL OPTIONS

- Safety switch under the table top
- Adjustable weld-cooling time (0-2 sec.)
- Selected parts in stainless steel
- Servicing and spare parts available
