

Vacuum Sealer Bags

PRODUCT DESCRIPTION

Food stays fresh and lasts up to 5 times longer with Venus Vacuum Sealer Bags, by providing an almost total barrier against oxygen transmission. They extend the freezer life of fresh and cooked meat, poultry, and fish, reduce dehydration and weight loss, improve hygiene by minimising the danger of cross contamination, and reduce waste. Venus Vacuum Sealer Bags are food safe and BPA free. They are made of 80% polyethylene (food contact layer) and 20% nylon.

Available as flat bags (for in chamber machines) and channel/embossed bags (for out of chamber machines). Both types of bags provide a professional and tamper-proof finish for items such as fish, meats, and small goods. They heat seal tightly and wrinkle free.

Vacuum pack bags for the commercial vacuum chamber machines are flat and smooth, and present the packaged items professionally. Use with VMS and Audion range of vacuum chambers.

Vacuum sealer bags for domestic, out of chamber machines are specially designed with channels in the plastic film. These channels give an unrestricted pathway for the air to flow out, and allows wrinkle free packaging. Use with Venus 329 or 529 Vacuum Sealer.

APPLICATION INFORMATION

- Used to vacuum pack meat, fish, ground coffee, and delicatessen products to extend shelf life.
- Our embossed vacuum sealer bags come in rolls or as ready-made bags.
