

Polypropylene Bags (PP Bags)

PRODUCT DESCRIPTION

Venus Polypropylene Bags are crisp, clear and lightweight bags. They provide a crystal clear presentation for your packed items. Stiffer and more transparent than low density polythene (LDPE), polypropylene requires a higher temperature for heat sealing and has less elongation. They have a glossy design, and feature low water vapour transmission and excellent resistance to acids, alkalis, and organic solvents. Resistance to scuffing, brittling, and yellowing keeps packages looking new. It is especially suitable for items exposed to frequent handling and shop soiling.

APPLICATION INFORMATION

- Used for bagging of foods, greeting cards, stationery, clothing, confectionery, cosmetics, and other retail products.
- High visual quality making them ideal for high value and luxurious goods.
- PP bags can be heat sealed closed using Venus Heat Sealers.
