

# M1580

## PRODUCT DESCRIPTION

The Venus M1580 Pallet Wrapper is a user-friendly and cost-effective pallet stretch wrapper. The operator maintains total control, even whilst on automatic wrapping cycles. Without interrupting the cycle, you can add extra wraps, adjust the film tension and vary the speed of the film carriage and turntable.

For automatic wrapping, simply choose an Up/Down or Up Only cycle then specify the reinforcing wraps as required at the top or bottom or both. Adjust the film carriage speed and the turntable speed then press the start button.

For manual wrapping, there is push button turntable control. Each press of the film carriage button alternatively raises or lowers the film carriage.

## PRODUCT FEATURES

- Gentle, slow stop and start
- Turntable always stops at same home position
- Photo electric eye senses pallet height in auto mode
- Control panel rotates 180 degrees; allows operation from either side
- Film tension adjustment
- Safety trip switch stops film carriage descent if it meets an obstruction
- Servicing and spare parts available.
- Also available optional loading ramp
