

VH210E WATER ACTIVATED TAPE DISPENSER

PRODUCT DESCRIPTION

The Venhart Electronic Water Activated Tape Dispenser is your economic solution to the challenges of carton sealing. The built-in guillotine and ability to pre-set tape lengths allows for precise cuts every time.

It features a heated water reservoir for instant adhesive activation from the press of a button. The heating option helps maintain the tape's moisture uniformity and adhesive strength in colder environments. The water bottle boasts a generous capacity of 1.73 litres reducing the need for constant refills. The electronic interface keeps track of data such as total length used and quantity of lengths cut.

PRODUCT FEATURES

- Ideal for fast-paced carton sealing
- Heated water reservoir maintains adhesive strength even in colder environments
- Precise cutting with the built-in guillotine and your choice of tape lengths
- Compatible with recyclable gummed tape for environmentally friendly packaging
- User-friendly electronic interface for job tracking

MACHINE SPECIFICATIONS

Machine weight	11.7kg
Machine size	510mm (L) x 252mm (W) x 266mm (H)
Water bottle capacity	1.73L
Compatible with tape diameter roll	Up to 200mm
Compatible with tape width	Up to 76mm
