

VHIF/III IMPULSE

VHIF/III 1005

PRODUCT DESCRIPTION

The VHIF/III range has advanced sealing capacity, extra power and an extended timer range to effortlessly seal polythene, polypropylene, and polythene/paper laminated bags (including autoclave bags). Safety is prioritized with covered element retainers, while cleverly designed sealing jaws apply pressure more efficiently. Each model is equipped with a timer, foot pedal, and tray and comes complete with stand. Some models come with the additional feature of a hot foil print facility with type set kit – refer to the table below for more details.

PRODUCT FEATURES

- Print Facility models – come with a printer to add transactional data onto the bag or tubing, such as batch numbers or expiry dates.
- Double seal models available.
- Comes complete with stand, foot pedal of adjustable support tray.
- Servicing and spare parts available.
