

Newlong Portable Sewing Machine

PRODUCT DESCRIPTION

The Newlong Portable Filled Bag Closing Machine is a high-speed single needle machine for closing filled bags of various products from wood to potatoes. A durable and reliable sewing machine makes it ideal for stitching bags containing agricultural and industrial products. It's able to seal bags of various materials such as kraft paper, hessian, jute, PP/PE woven cloth, and cotton. Thread tension is adjustable for tighter closure.

PRODUCT FEATURES

- Sews a single thread chain stitch
- Can close bags of materials such as hessian, cotton, jute, kraft paper, PP/PE woven cloth
- Sealed oil pump lubrication system
- Low maintenance
- Automatic thread cutter
- Adjustable thread tension for tighter bag closure
