

Safeguarding your
cotton from field to gin

venuspack.com.au

A PRODUCT BY

A History of Venus Packaging in Agriculture

- Australian owned and operated since 1959, with an unbroken reputation for service and quality.
- A proud connection to Australian agriculture, supporting farming communities across multiple sectors, from fodder to produce as well as the cotton industry.
- Decades of experience delivering reliable and advanced crop packaging solutions nationwide.
- Our time on the ground and in the field is at the heart of understanding the requirements of growers, contractors and industry leaders.

Osprey Cotton Wrap

By Venus Packaging

- A premium Cotton Module Wrap developed and refined directly through Australian trials and industry feedback.
- Designed in response to the cotton sector challenges of low grade wrap failing to maintain module integrity and protect the crop against damage and plastic contamination.
- Osprey – a trusted brand and cost-effective solution from a supplier with a long history in Australian agriculture.

Key Features

Pre-Cut Portions

21m length portions with seamless transition between adhesive and non adhesive zones for clean, consistent application, minimising contamination.

UV stable under Australian conditions with proven durability up to 6 months in direct sun.

Superior gauge and strength to eliminate tears and punctures.

Orange colour for high visibility, especially at night

Compatible with all cotton picker makes and models

PowerStretch

Osprey PRO

TOTALCOVER
Nothing covers like Totalcover

TOTALCOVER PRO
Nothing covers like Totalcover

Venus

Cardinal

RFID Tags

Includes 4 RFID tags and 1 unique Identification tag per module for full traceability from field to gin and beyond.

OspreyTM
COTTON WRAP

Secure sealing

A proprietary glue formulation for Australian conditions ensures exceptional closure, effective sealing, and reliable separation for each module.

Robust Modules

Shape is maintained and module slump avoided with 9m of adhesive, high gauge film to grip and secure each pre-cut portion.

Edge coverage

Full edge coverage protects modules from water damage and handling stress

Specifications
