

1120AH HORIZONTAL BAND SEALER

PRODUCT DESCRIPTION

The Venus 1120AH Horizontal Band Sealer is a versatile continuous heat sealer that features a robust stainless steel design. This sealer is suitable for sealing bags lying in a horizontal position. The distance of the conveyor belt to the seal head can be adjusted to suit your packing needs and accommodate a variety of bag sizes. The height of the unit can also be adjusted. This sealer feeds from right to left.

The 1120AH is easy to operate and has a fast warm up time. It features a solid state digital temperature controller that maintains the seal bars at a constant temperature for consistent seal quality. The belt speed can also be adjustable to a maximum speed of up to 12 metres per minute. It also includes dry ink coding to allow for printing on the bags on the seal.

PRODUCT FEATURES

- Distance of conveyor belt from seal head adjustable up to 275mm
- Adjustable height
- Stainless steel design
- Digital temperature controller
- Includes dry ink coding to allow for printing on the seal line
- Often used in food and medical/pharmaceutical packing industries

MACHINE SPECIFICATIONS

Machine Weight	82kg
Machine dimensions (LxWxH)	1111mm x 570mm x 1030mm
Maximum Seal Speed	Up to 12 metres per minute
Seal Width	10mm
Conveyor Table Width	205mm
Temperature Range	0 – 300°C
Seal Distance Below Bag Top	37mm
Belt Loading Capacity	Max 10kg
Power Consumption	1040W
