

VH-1370AL VERTICAL BAND SEALER

PRODUCT DESCRIPTION

The VH-1370AL is suitable for sealing larger and heavier bags. The vertical configuration is ideal for sealing stand up pouches or sacks containing dry and liquid-type products. This band sealer is used across a variety of industries including food, medical, horticulture and cosmetic.

The VH-1370AL is equipped with an adjustable sealing head and conveyor, both fully adjustable to suit a wide range of bag heights.

PRODUCT FEATURES

- Easy to operate and maintain
- Ideal for heavy duty applications
- Dual heating bars suitable for sealing thicker materials
- Dual solid state digital temperature controller to maintain seal bars at accurate temperature for consistent seal quality
- Knurled pressure rolls with variable pressure adjustment
- Sealing method – constant/direct heat accompanied with two pairs of heating blocks
- Fully adjustable distance between seal centre to conveyor belt
- Sealing speed not adjustable but customizable
- Right to left feed
- Equipped with sturdy casters wheels

MACHINE SPECIFICATIONS

Machine Weight	250kg
Machine Dimensions (LxWxH)	2565mm × 720mm × 1670mm
Maximum Seal Speed	Up to 8 (m/min)
Seal Width	10 (mm)
Conveyor Table Width (LxW)	2400mm X 350mm
Temperature Range	0-300 (°C)
Distance from Seal Center to Conveyor	300-900 (mm)
Max. Conveyor Load for Single Bag	≤20 (kg)
Belt Loading Capacity	≤60 (kg)
Maximum Bag Height	960mm
Power Consumption	AC220/50 (V/Hz)
Motor Power	550 OR 750 (W)
Sealing Power	300X4 (W)
